

SAFE WORKING WITH A CHERRY PICKER

Risks

Risk of falling and tilting

Injuries caused by being crushed or by falling objects

PPE for safety

Fall protection and helmet

Safety shoes S3

Measures

1. Before starting work

Receive training and instructions

Choose the most suitable cherry picker

Check the manual beforehand

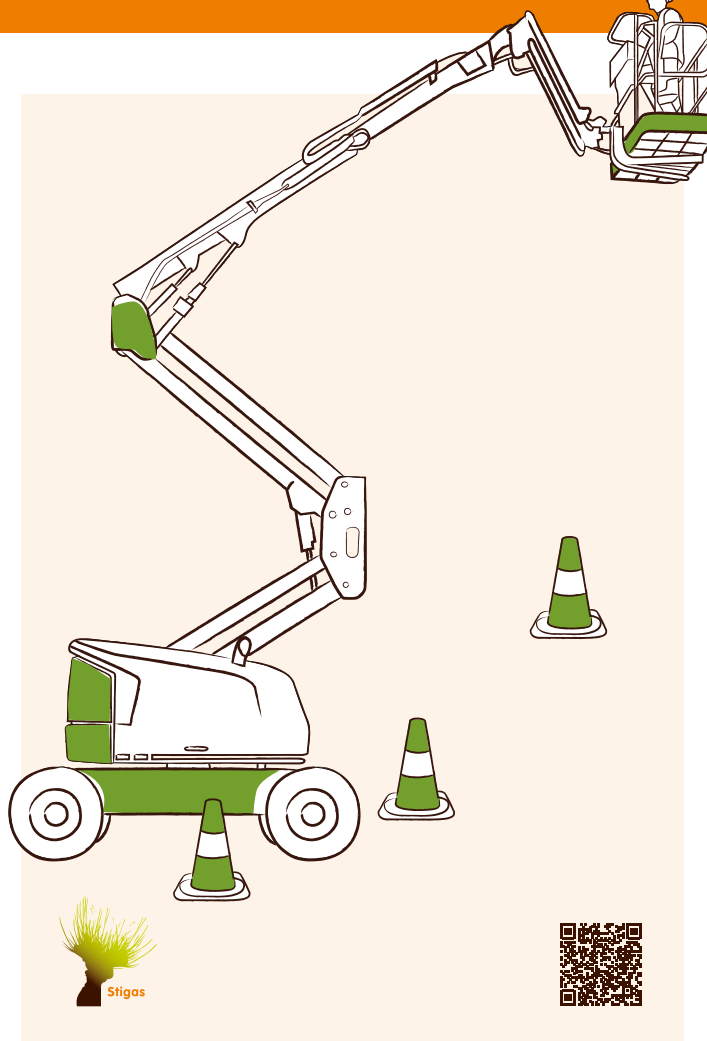

Check the surface

Clearly mark out the work area

Never work without ground support

2. Execution

Use a positioning line

Close the work tray

Use communication tools

Don't make any sudden movements

3. After work

Park on a stable surface

Report damage and defects

Switch off the engine and remove the key

4. Extra

Ensure an annual inspection

The assistant on the floor is familiar with the emergency descending system

Call in the event of emergency or breakdown
